Description

Excellent Permian Basin asset located on the Eastern Shelf of the Midland Basin. There are currently 29 active wells which are mature and with very low decline rates. Plenty of room for additional drilling and tapping in to rich down hole formations. Current production is 100% crude oil. The operator is Crossroads Operating Co, out of Midland Texas, who focus only on this area of the state. These assets will likely be acquired by a larger operator at some point as the whole Permian Basin is seeing unprecedented consolidation.
